**Crime Analysis Report**  
**Criminal Justice Information Center**  
**October, 1997**

---

Here is the first edition of the Crime Analysis Report! The Criminal Justice Information Center, in conjunction with the Crime Analysis Steering Committee, will be providing these reports to law enforcement agencies as a simple source of information to use for resource allocation decisions, information sharing between departments, cooperative work with local governments and public groups, and grant applications. The demographic information in this edition will be used as a base for future reports which will focus on specific crime issues. The main sources of information that will be used for future editions will be Uniform Crime Reports (UCR) and Michigan Incident Crime Reports (MICR). Timeliness of reporting at the local level will greatly improve the quality and usefulness of crime analysis that will be reported back to you.

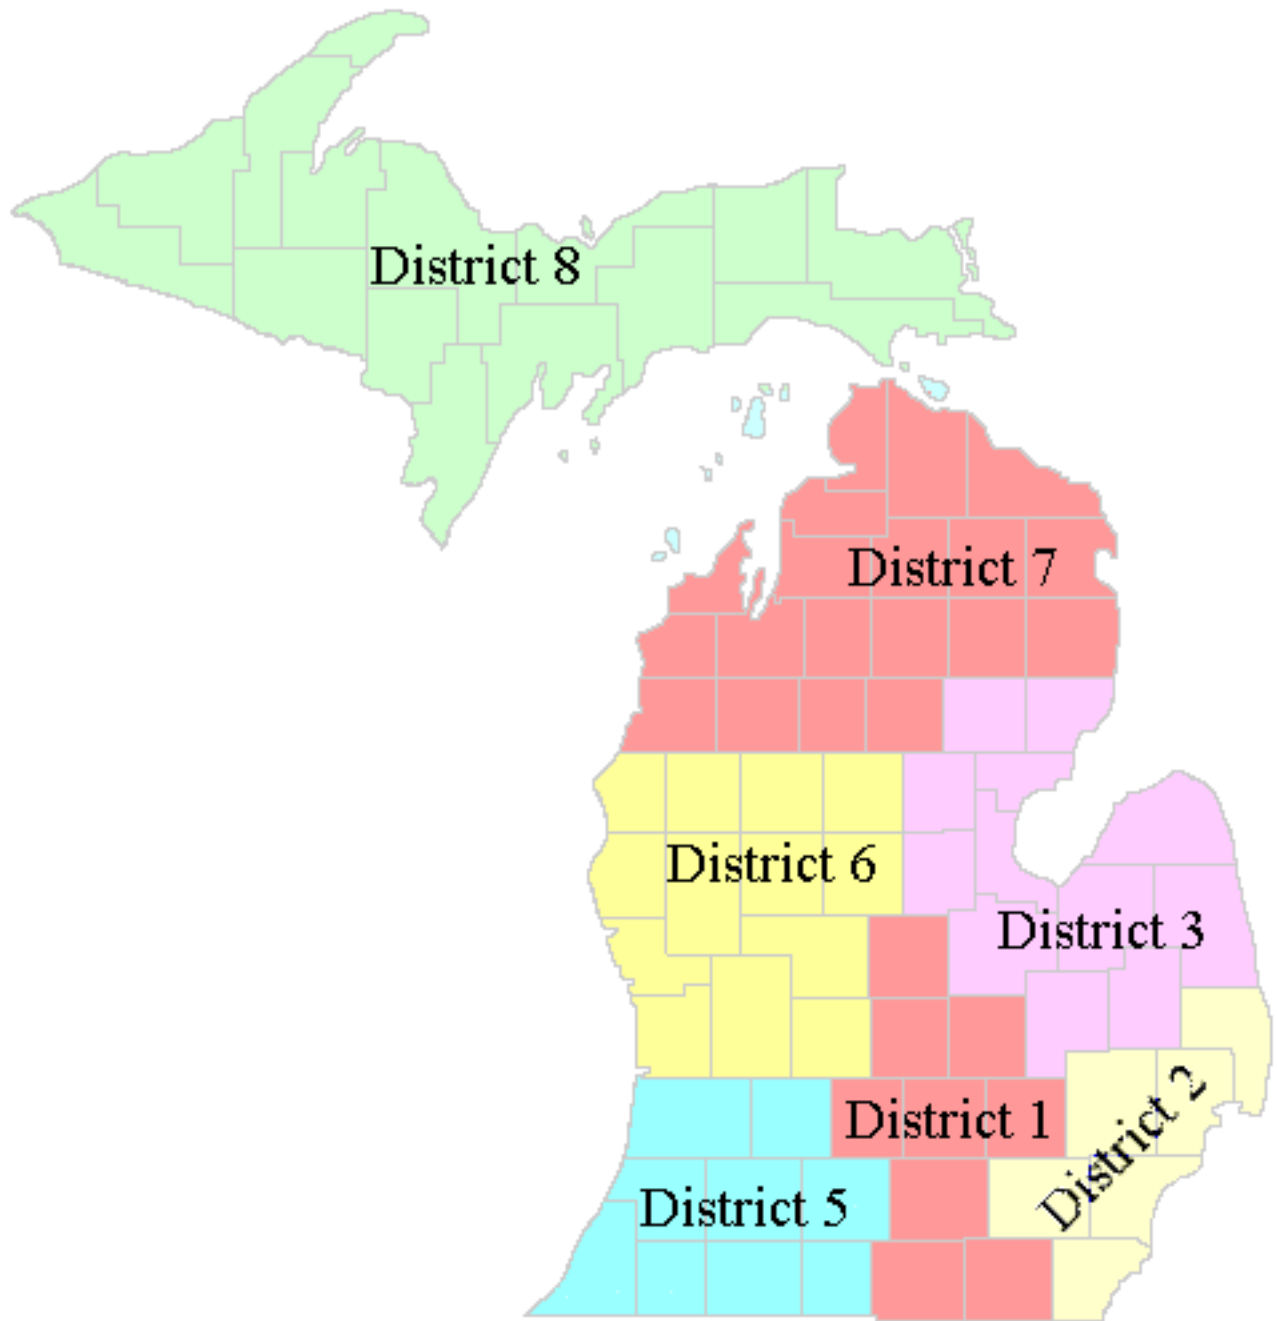

Ideas, suggestions, and questions about crime analysis can be directed to the Criminal Justice Information Center at (517) 322-6025 or by [e-mail](#).

# Topic: Demographics

## District Two Crime Analysis Report Criminal Justice Information Center October, 1997

### County Information

- Washtenaw County has the lowest percentage of unemployment in Michigan (3.4%)
- Wayne County has the highest population in Michigan (21.53% of the state's population)
- Oakland County has the second highest population (12.08% of the state's population), and has more than twice as many residents as the third highest populated county (Kent, [District 6](#))
- Wayne County is the only county in District Two to experience a decline in population from 1990-1995

### District Information:

- District Two is home to 47.43% of the state's population
- District Two has the highest per capita income in the state (\$22,576)
- District Two has the third lowest percent of unemployment in the state (of seven districts)
- District Two had a population growth of 1.21% from 1990-1995, which is the second lowest growth district in the state
- Three of the five highest per capita income counties in Michigan are in District Two (Oakland, Washtenaw, and Macomb)
